

A Stronger Way to **Save.**

CORD[®]
I N C O R P O R A T E D

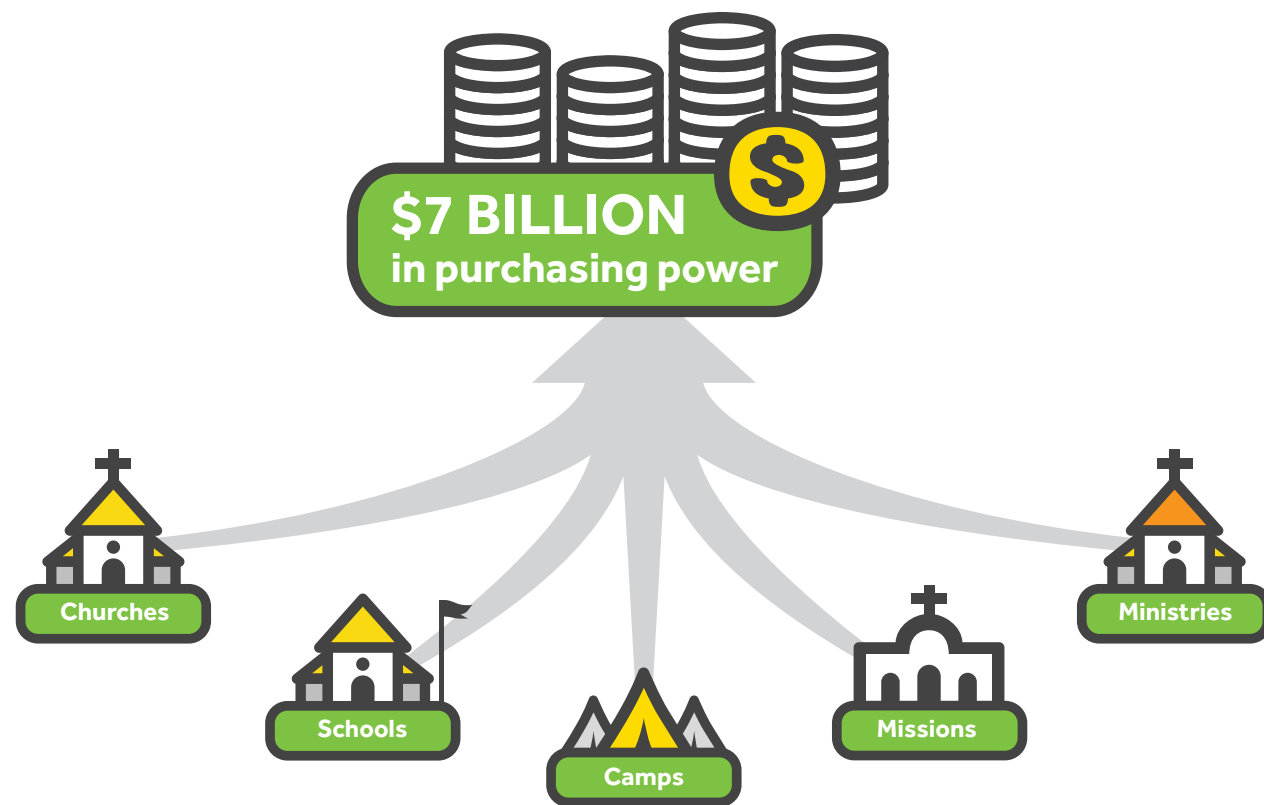

Stronger

Together.

Benefits of Buying Together.

Today's economy makes any buying decision difficult. Giving is down and leaders are struggling to find ways to save money. However, it takes time to shop for the best deals. Time is money, or in your case, time is ministry. How do you lower operating costs, and at the same time, maintain ministry on a reduced budget?

Thousands of ministries have found relief by joining CORD. Membership in CORD saves you both time and money. By bringing together the purchasing resources of ministries all across the country, CORD has negotiated the best possible prices on products and services common to all ministries. No longer are you viewed as an individual property making purchases. Vendors now see you as part of a \$7 Billion buying power.

Superior Service and Products.

CORD works with only the best service providers and manufacturers. No need to sacrifice quality or level of service in order to achieve excellent savings. Unlike other groups, our vendor agreements are negotiated at the highest levels of management. This creates strong and committed partnerships.

A few of our vendor partners:

What can CORD offer you?

CORD brings all of your purchasing needs together with one program. We offer immediate cost reduction in every area of spending with national account pricing as well as earned allowances on thousands of preferred products through Sysco and other CORD partners. CORD is available to meet with you and your staff to discuss all the possible ways to save money, and we will gladly perform a cost analysis at your request.

What does it cost to join CORD?

There is no cost, no sign up fees, and no contracts. In fact, it costs NOT to join!

Do Members purchase products through CORD or the Vendors?

Purchases are made directly through the Vendor Partners.
CORD continues to provide customer support as needed.
